

WOODSTOCK, VIRGINIA.

FRIDAY, APRIL 16, 1909.

The republicans have a diffi cult task to revise the tariff as they promised the people. Th manufacturers have such influence with Congress, that it will be inpossible to adjust the tariff in the interest of the people. Besides, the cry of the consumers has reached their ears, and they have taken the tariff off of articles whose revenue goes to the government and have placed it on articles which will increase the profits of the manufacturers. The tariff which was originally in- t, \$339.00 made therefor to be paid Kroeger Piano Co., of New York. tended to produce revenue, under out of the next levy. the policy of the republican party. is now so framed as to enrich one class at the expense of the others. Northern manufacturers be paid out of next levy. have become millionaires, by the aid of the protection which the government has thrown around their factories, while the great mass of the people have been heavily, and as we believe, unwealthy classes.

The policy of the democratic party is to legislate not in the in- sion on Monday, April 26th. terest of classes, but in that of the people at large. This is the SENATE COMMITTEE SPRINGS only just policy, but it works hardship upon some sections, especially the Southern States. While the people of the South are taxed heavily to aid Northern industries, and to pay large pensions, in many cases, to men who the war, the South receives little c or no aid from these funds.

South should receive their share.

So long as the protected industries receive aid from the government, extravagence in government appropriations will be advocated; for under the pretense is increased upon articles which and producing aggregations, are taken are manufactured in this country, and the increase flows into the pockets of the manufacturers in-

general government. Whenever Congress imposes a tariff tax, for the purpose of protecting manufacturers, they are robbing one class of our people, for the benefit of another class. No such power should be delegated to any class of representatives.

The true policy should be, a duced. tariff for revenue only, sufficient to meet the requirements of the government economically administered, A tariff in excess of vision should be downward.
